The intelligent GÜNTHER solution

Industry:	Consumer
Part description:	Tool handle
Material type:	PP
Articel weight:	Component 1 = 16 g per nozzle Component 2 = 4 g per nozzle
Task:	2-C processing. Accuracy in dimensioning and surface finish.
Challenge:	Extremely narrow installation conditions.

The intelligent **GÜNTHER** solution:

1 + 1-fold hot runner system (straight manifold) with 5SHT50 nozzles
One manifold for two materials.
Optimisation of cycle times by using a nozzle with insulated shaft,
such as ...HT type.
