# GÜNTHER solution

Industry: Medical

Part description: Closing element

Material type: POM (Hostaform)

Articel weight:: (total) 0.166 g

Task: 2-component processing (red / white). Accuracy in terms of dimensioning and surface.  
No burring. High service life of the valve gate system.

Challenge: Combination of POM / POM requires high temperatures.  
Avoidance of thermal damage to material.

## The intelligent GÜNTHER solution:

32-cavity mould with 4NMT50S nozzles for 1st component and 4NMF50S nozzles for 2nd component.
